

Connecting Learning to Opportunities

The BigFuture School mobile app helps teens connect what they're learning now to what comes next.

BigFuture® School is a free app that helps students explore college and career opportunities and take meaningful steps to plan what's next with confidence. Available to students 13+ in participating U.S. schools, the app supports both in-school SAT Suite of Assessments test takers and students enrolled in eligible AP courses.

Whether they know exactly where they're headed or are just starting to think about their future after high school, BigFuture School helps students build on their strengths and aspirations.

PERSONALIZE FUTURE PLANNING

Students explore colleges and careers with tools and guidance tailored to their grade level, skills, interests, and goals. They decide how they want to engage and the app customizes their in-app experience.

GET MATCHED WITH RELEVANT OPTIONS

When students opt in to Connections™ (where available), they can discover nonprofit colleges, scholarship providers, and government agencies administering educational programs that match their goals and interests—and are actively looking for students like them.

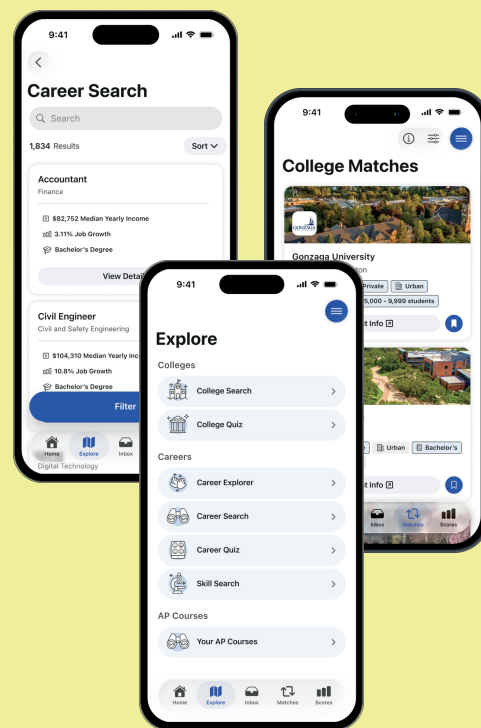

**A state, district, or school can choose not to offer Connections. Not available to 8th grade students taking the PSAT 8/9.*

ACCESS THE APP EASILY AND SECURELY

Provided mobile numbers are used only for authentication and limited notifications – which means no password for teens to remember.
