

Career Insights Snapshot

Support Your Students in Exploring Careers

The best career fit connects a student's interests, values, and skills.

Every career has a set of measurable skills. College Board and HumRRO mapped the skills of 1,000 careers to the math, reading, and writing skills measured on the SAT® Suite of Assessments. On their score report, test takers will see growing careers in their state that connect to their assessment scores to spark their interest in learning more about their future career options.

What does Career Insights Snapshot show students?

Students receive information on careers that connect to their Math test and Reading and Writing test scores, and that are growing in their state. By providing this information, millions of students can learn about important aspects of a career to consider.

Each career example:

- Connects to the **math, reading, and writing skills** students demonstrated on their SAT® Suite of Assessments.
- Projected positive **job growth in the state** over the next 5 years.
- Meets a **living wage** in their state.
- Offers one example per **interest area** to help expose students to a variety of career types.
- Requires some kind of **postsecondary education**.

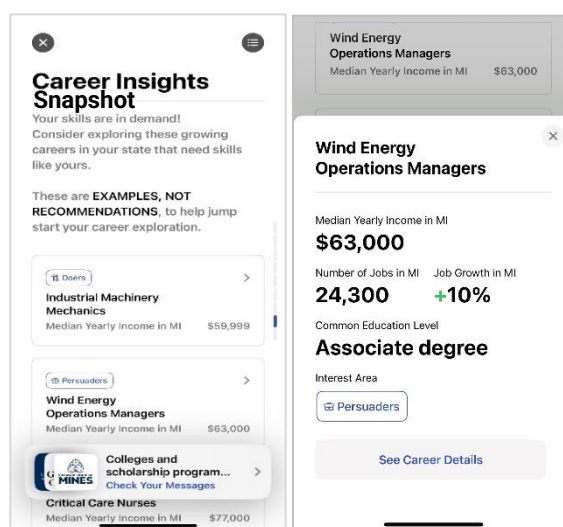

Figure 1. Available in BigFuture® School mobile app to in-school, domestic test takers, 13 and older.

Career Insights Snapshot

Your skills are in demand! Consider exploring these growing careers in your state that need skills like yours. **These are examples, not recommendations**, to help jump-start your career exploration.

INTEREST AREA*	CAREER EXAMPLES	MEDIAN YEARLY INCOME IN MI	NUMBER OF JOBS IN MI**	JOB GROWTH IN MI**	MOST COMMON EDUCATION LEVEL

The careers provided are not the only available in the state or the only careers students should consider for themselves. **The careers should be viewed as a starting point, not recommendations.**

Starting Point to Career Exploration

If your students are not interested in any of the careers—that's okay.

Students are encouraged to navigate to bigfuture.org to access more information and explore almost 1,000 career profiles.

Students' skills will change and grow over time and are just one of the many elements that students should consider as they explore their options for the future.
