

BigFuture School: What To Know Before Test Day

Are you taking the PSAT 10™, PSAT/NMSQT®, or SAT® in school? You'll be able to access your scores on BigFuture School, a mobile app that gives you control in planning for life after high school.

To access BigFuture® School, take these steps **before** test day:

DECIDE TO GET YOUR SCORE ON THE MOBILE APP

With the BigFuture School app, you can easily view your scores. We'll let you know as soon as they're ready. Chat with your family or caregiver to decide if BigFuture School is a good option for you.

KNOW YOUR MOBILE NUMBER

To get your scores through the BigFuture School app, you provide your mobile phone number when you log in to Bluebook™ and complete the digital exam setup. You'll be able to download the app, get a code to sign in, and receive a text alert when your scores are ready. *Your mobile number won't be used for any other purpose.*

CONSIDER OPTING IN TO CONNECTIONS™

When you download the app (or during exam set-up), you can opt in to Connections to hear from nonprofit colleges, scholarship providers, and government agencies offering education programs that may be a good match—without sharing any personal information.

If there is a college or program you're interested in, you decide if and when to reach out and learn more. *Your school, district, or state may choose not to provide access to Connections.*
